

## Change in FCI Emerging and World AC Investable Universe

As of 2022-03-01 FCI removes Russia from its **Emerging** and **World AC** Raw and Investable universes due to extended market closure of the Moscow Stock Exchange and subsequently the non investability of Russian equities.

Due to the below change **FCI EMERGING 800** and **FCI WORLD AC 1200** Indexes are now free of any Russian equities.

Before late February rebalancing Russian equities represented 3.08% of **FCI EMERGING 800** Index and 0.39% of **FCI WORLD AC 1200** Index.
